PRODUCT DESCRIPTION

The **DW 1050** Pneumatic Height Adjustable Overbed Table is designed to provide practical bedside support, patient comfort and easy daily use in hospitals and healthcare environments. Featuring a blow molded polypropylene dining board with pneumatic height adjustment, the table offers hygienic use, easy cleaning and smooth daily operation for patient meal and personal item support.

Its epoxy powder coated steel frame, stable under-bed structure and Ø50 mm twin swivel castors, including two lockable castors, provide durability, controlled mobility and practical maneuverability for intensive healthcare use.
